

FOR IMMEDIATE RELEASE – 6/16/16

### **DeliveryTrack Adds CarePoint Interface**

Anacortes, WA – June, 2016 – DeliveryTrack now supports an interface to the CarePoint pharmacy system which is available for all customers.

“With the assistance of staff at CarePoint, we have created this requested interface for the benefit of our mutual customers,” said Raymond van Rooyen, DeliveryTrack Product Director. “We are pleased to add CarePoint to the list of pharmacy technologies to which DeliveryTrack interfaces.”

The interface will allow CarePoint to send information on deliveries directly to DeliveryTrack, which will then automatically create stops based on received address information. Tote, manifest, and Rx-level scanning can be performed at point of delivery.

To get the CarePoint interface, contact Sales at 866-257-4279 or [sales@integragroup.com](mailto:sales@integragroup.com).
