Make Your Data Work for You

Intelligent Business Analytics

With every click, your pharmacy is creating data. It's time to know what you've got. Your pharmacy management system is constantly compiling pieces of a picture about your pharmacy's business health. What if just a few clicks more could bring the pieces together? Mevesi is all about giving you a full, clear picture that points the way toward improvement.

"You name it, Mevesi can help you identify it. In less than five minutes you can build a dashboard that shows data across all systems. This tool allows us to identify anything that could be slowing financial progress. We have identified new avenues of potential revenue and productivity."

Rusty Lee, Senior Vice President, Ancillary Services, Community Health Services of Georgia

Unlimited Insight

Maximize your investments by aggregating near real-time metrics from prescription, drug, pricing, and accounting data. Easy-to-use reports facilitate forecasting, margin evaluation, inventory control, and operations monitoring.

Day-to-Day Control

View data so you are prepared for anything. Break down all your operations by Rx revenue, new business, organic growth, and existing business.

Essential Business Forecasting

Predict the future. Identify strengths and weaknesses and control every aspect of your business. Simplify goal setting with reliable data and easy-to-read graphics that improve efficiency.

Decreased Costs

Quickly view your negative and positive margins and locate unpaid charges. Track high and low volume products for better inventory control and reduce on-hand inventory with real-time and historical information.

Software Extensions

Integrate point of sale and accounting information into your Mevesi data feeds. In less than five minutes you can build a report that shows the exact data you want to see across all systems.

Accounting System

- Integrates with different accounting software programs

- Access to multiple accounting specific reports:
    - Stores
    - Accounts
    - Vendors
    - Paid Claims
    - Unpaid Claims
    - Cash-Flow Summary

- Dashboards provide at-a-glance view of data:
    - Variable vs. Fixed
    - Labor vs. Non-labor
    - Cash-Flow
    - Reconciliation

- Scorecards give a quick visual of data to help identify trends and overall health of the pharmacy:
    - Labor
    - Location
    - Non Labor
    - Variable Cost
    - Fixed Cost
    - Pharmacy
    - Non-Pharmacy
    - Cash-Flow Detail
    - Cash-Flow Forecasting

Point-of-Sale

- Gather additional data from point-of-sale transactions.

- Run location, product, and category reports for a clearer financial picture.

- Create dashboards for revenue and volume.

- Use reports for quick visibility into emerging trends.

Integra is always working toward more integration to provide you flexibility and solutions that fit your needs. If you have a specific system you would like to talk about interfacing with, please reach out to our sales team to get a conversation started!
