

Enable Recognition of Different Barcodes to Increase Productivity

Increase the productivity of your pharmacy without adding additional staff. This module works with DocuTrack to enable recognition of four different types of barcodes to further automate your pharmacy workflow.

Key Benefits

Static and dynamic barcodes allow for instant routing of documents based on document type, where it is received from, or what document it was originally associated with.

Static barcodes indicate document type. Pharmacies can create forms using static barcodes and even provide them to facilities. Upon receipt into DocuTrack, the forms can be instantly routed. Integra partners with forms providers to supply commonly used forms, or create them yourself.

Dynamic barcodes can be automatically added to documents when faxed out of DocuTrack. Upon return, the document is recognized, immediately stapled to the original, and routed to a designated folder.

Refill barcodes instantly associate Rx information to an original order. When received into DocuTrack, it can be recognized, routed, and sent to the pharmacy system for processing. Users can also mass submit refills.

Manifest barcodes associate packing slips to patient information. When scanned into DocuTrack, the manifest is instantly paired with the original Rx. The manifest is then searchable within DocuTrack.

Technology

The technology behind the Barcode module is based on an advanced image processing and barcode recognition algorithm that quickly and reliably reads barcodes. It can also read damaged barcodes that cannot be read by hand scanners.

The technology included with the Barcode module also enables you to automatically perform other time-consuming tasks – these include automatic image rotation, image de-skew (minor rotation), de-speckle, and several other image enhancements that improve the visual clarity of your fax images.

These barcodes were successfully read by the Barcode module and could not be read with a hand scanner.

Features

- Mass-submit refills
- Automate collation
- Instant associations

Benefits

- Increase automation
- Fewer errors
- Expedite routing

Technology

- High read rate
- Read damaged barcodes

Other Software Extensions

- Secure Messaging
- Active Directory
- eRx
- Real-Time Viewer
- Direct Print
