

integra® | Suite

Realize Your Potential

The Integra® Suite offers the most comprehensive, intuitive, and scalable software solutions to help our clients efficiently manage their pharmacy, generate more profits, and better serve their patients.

PrimeCare®

PrimeCare is an **integrated, scalable pharmacy management system** that answers all the needs of independent, long-term care, and combo-shop pharmacies.

- Streamline daily processes and improve efficiency.
- Best-in-class billing matrix.
- Manage multiple facilities from one location.
- Works with more than 200 interfaces.

DocuTrack®

An **end-to-end, customizable workflow solution** that organizes and stores all the documents and media that keep your pharmacy running.

- Single repository for all content.
- Flexible and customizable.
- Quick and easy audits.
- Unified search with one click.

DeliveryTrack®

Compliant pharmacy logistics that manage all aspects of your pharmacy delivery process – from item validation and route optimization to signature capture.

- Increased compliance.
- Optimized route scheduling reduces costs and improves efficiency.
- Intuitive integration with couriers, UPS, and FedEx.
- Real-time signature capture.

Logix®

Automate your pharmacy, your way. Reduce repetitive manual handling with **process automation**. Free up your resources, allowing you to grow your business and better serve your patients.

- Automate refill too soon and refill workflow.
- Eliminate calls, emails, faxes, and follow-up.
- Remove repetitive manual processes.
- Redirect hundreds of staff hours.

Mevesi®

Make data-driven decisions with **intelligent business analytics**. Aggregate data to identify financial concerns and find areas to maximize profit.

- Analyze any aspect of your business.
- Gain insight into prescription and claims data.
- Forecast prescription utilizations.
- Pull data from most pharmacies.

Integra Cloud Fax®

Communicate securely and efficiently with a powerful, easy-to-use, HIPAA-compliant **online fax solution** with enterprise-level flexibility and no hidden fees.

- Capable of handling any fax volume.
- Automatically resends the fax until it is successfully transmitted.
- Retrieve faxes immediately to answer customers' inquiries quickly.
- Automatic backup and high-level redundancy prevent information loss.
