FOR IMMEDIATE RELEASE

July 27, 2023

RedSail Technologies® Announces Integration Between Axys® and DosePlanner™

(Spartanburg, SC – 7/27/2023) RedSail Technologies, LLC, developer of Axys, is pleased to announce its integration with DosePlanner™, a cloud-based medication management solution. This strategic collaboration aims to empower pharmacies and healthcare providers with enhanced workflow efficiency, improved patient care, and optimized operational performance.

The integration of Axys® and DosePlanner™ enables seamless synchronization of patient data and streamlines medication management processes. By leveraging the robust capabilities of DosePlanner™, pharmacies can operate various packaging tasks from any workstation or location, enhancing flexibility and productivity in today's dynamic healthcare environment.

The collaboration between Axys® and DosePlanner™ empowers healthcare providers to ensure medication adherence and enhance patient well-being. With DosePlanner™'s advanced features, including automatic renewals and reduction of medication errors, pharmacies can improve workflow efficiency and enhance pharmacy staff expertise, leading to cost savings and improved patient outcomes.

"We are excited about the integration of DosePlanner™ with Axys®, as it enables pharmacies and healthcare providers to enhance workflow efficiency and optimize patient care. This collaboration empowers healthcare professionals to streamline medication management processes and improve medication adherence, leading to improved patient outcomes and cost savings," says Director Richard Munger.

By harnessing the power of Axys® and DosePlanner™, healthcare providers can elevate the quality of care for their patients. The integration allows for efficient prospect-to-patient transitions, accurate assessment and service plans, documentation of care and services, comprehensive financial records, and improved revenue optimization.

RedSail is currently scheduling future implementations of Axys. For more information and product demos, email sales@redsailtechnologies.com or visit integragroup.com/axys.

###

About RedSail Technologies

RedSail Technologies, a trusted innovator in pharmacy software, is transforming patient care. Empowering over 10,000 pharmacies serving more than 8 million patients monthly. RedSail has deep experience with the needs and concerns of pharmacy across sectors – community, long-term care, outpatient, clinic, HME/DME, and specialty pharmacies – and their pharma, payer, and strategic industry partners.

Knowing the heart of pharmacy is the desire to provide meaningful patient care, RedSail makes daily pharmacy operations more seamless through advanced pharmacy management systems, transactional and medical billing services, and patient engagement solutions. Our leading brands, including PioneerRx®, groundbreaking Axys® long-term care pharmacy software, PowerLine®, TransactRx®, and QS/1®, provide the efficiency and industry integration that liberate pharmacists to focus on patients.
